One weird story which floats around is that the hostel premises is at the mercy of the ghostly spirit of Sangeeta, who once used to stay in this hostel but due to unconfirmed reasons got herself killed. This spirit prohibits any girl in the hostel from being happy. When Kanchan and Sheetal from the hostel are admitted to a mental hospital, it is declared that the evil spirit has imprinted on both the girls. Not very long after them, another girl named Jaya meets the same fate and is sent to the mental hospital. But Jaya decides to uncover the truth behind all this chaos and conspiracy. Determined about her objective, she brings in Sheetal and Kanchan in her plan. Jaya takes help from Salman, who is said to be Fatima`s son. The three girls escape from the mental asylum and embark on a journey to reveal a hard hitting and jaw dropping truth in front of the whole world. They kill Raseed Alam and Kedar Vishwakarma. By then, Salman has found out that Fatima is not his real mother but someone else is. After several plans, conspiracies and murders Jaya is successful in killing her last target Suresh Thakur. Jaya was on the verge of coming to the conclusion that it's over. But at that moment, Fatima Sheikh comes in front of her and warns her that she will pay for her sins. She will repent and pay for the crimes she has committed. Saying this, Fatima leaves. Jaya and Salman stand there shocked and lost for words.
